Tamper Evident Products

+30 años

Know-how and

experience that you can rely on

ABOUT **US**

With **more than 30 years of experience**, Royal Pack has established itself as a benchmark in Southern Europe in security seals and tamper evident solutions.

Our pioneering and innovative spirit has enabled us to develop advanced applications and obtain **more than 20 patents.** We combine product and service, manufacture entirely in Spain, and have a direct presence in Europe, Africa, and the Americas, **offering close, efficient, and personalized service.**

Quality · Speed · Flexibility · Commitment · Regulatory Compliance · After-Sales Service · Continuous Improvement · Sustainable Mindset

Quality, ***a non-negotiable value***

We are demanding throughout the entire process —design, manufacturing, and after-sales service—because we know that security depends on **flawless products and rigorous controls**. We select high-performance materials, apply certified methods, and carry out exhaustive checks to **ensure the reliability of every single piece.**

This level of rigor has allowed us to maintain our customers' trust and establish ourselves as a **benchmark in tamper evident solutions**. Our quality culture is based on continuous improvement: we analyze and refine every product and service to consistently exceed expectations.

CSR AND SUSTAINABILITY

At Royal Pack, we understand that our growth goes hand in hand with a **positive contribution to our environment.** Our **Corporate Social Responsibility (CSR)** strategy is based on environmental sustainability, social commitment, ethics, transparency, responsible innovation, and good governance, always with a clear customer-oriented approach.

We optimize resources, promote a safe and inclusive work environment, and act with integrity throughout our entire value chain. We develop **sustainable products and reliable security solutions,** reinforcing a corporate culture based on honesty and quality. In addition, we actively participate in the **"Sustainable Suppliers"** program, promoting responsible practices throughout our supply chain.

Our commitment to sustainability is also reflected in our product offerings: **80% of our seals are 100% recyclable, and 30% are made from recycled materials**, contributing to the circular economy and reducing environmental impact. We hold **ISO 14001** certification and measure our **Carbon Footprint,** ensuring that our processes and products respect the environment and the resources we are part of.
