EFFICIENT VENTILATION SOLUTIONS FOR INDUSTRIAL NEEDS

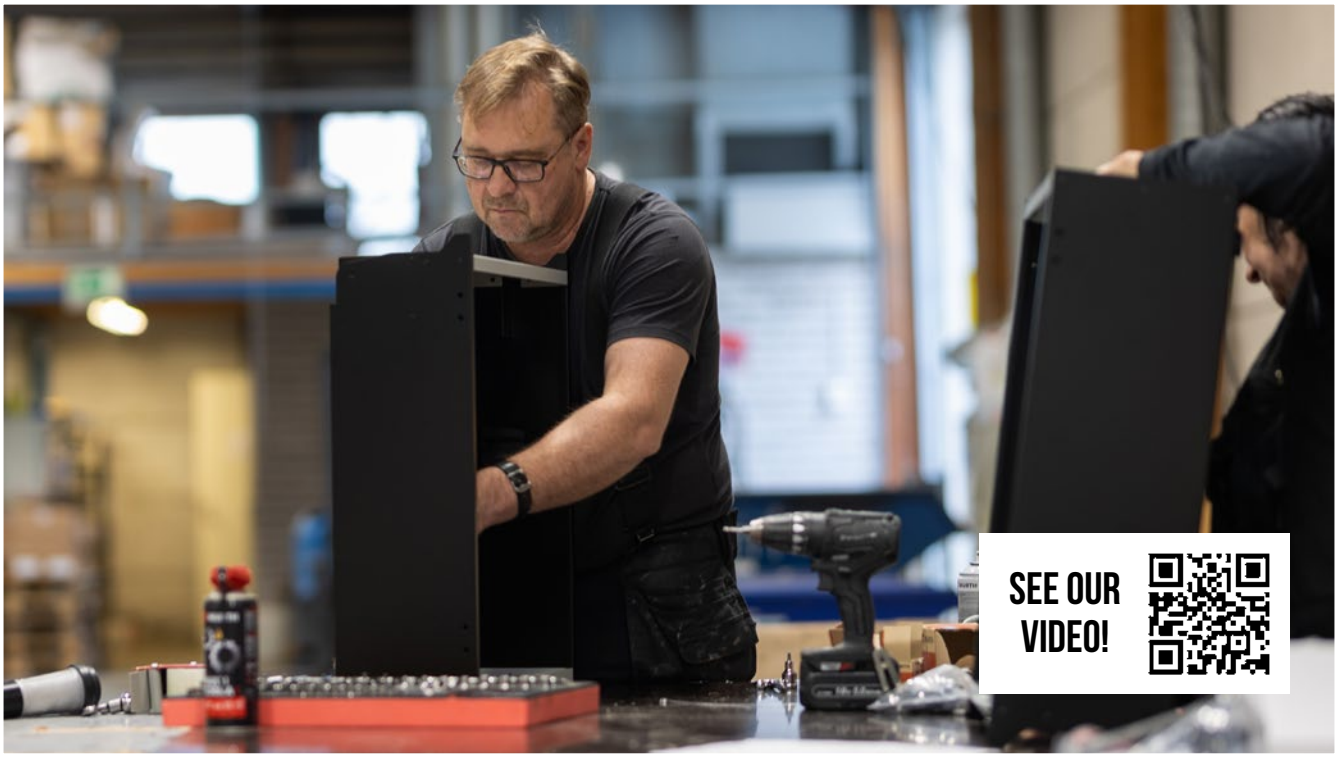

LEIMEC

VENTILATION SOLUTIONS FOR EXTREME CONDITIONS

Leimec Oy specializes in the implementation of efficient ventilation solutions

The Finnish company Leimec is a trusted partner for the global energy industry and for machinery and equipment manufacturers in Europe. Our family business has more than six decades of experience in ventilation. Founded in 1962 under the name Leinolat & Kumpp as a two-man tinsmith business, by the 2000s the company grew into the Leinolat Group, which now offers extensive products and services for the metal industry.

We speak the customer's language
We engineer and manufacture an average of 30 projects annually, both in Finland and abroad – we are also a reliable choice for both large and challenging projects as well as smaller and standard equipment solutions. During the engineering stage we consider the ambient conditions and other requirements of the project site making our products easy to install and quick to commission. Our solutions are designed to minimize the carbon logistic footprint.

WE SERVE INDUSTRIAL CUSTOMERS INTERNATIONALLY. PLEASE CONTACT US TO FIND OUT MORE!

TURNKEY VENTILATION SOLUTIONS

We produce ventilation solutions according to our customers' needs and requirements – either from customers' drawings or in many cases, our engineering based on the site requirements of the customer. Standard units are quick and easy to install.

DURABLE PRODUCTS

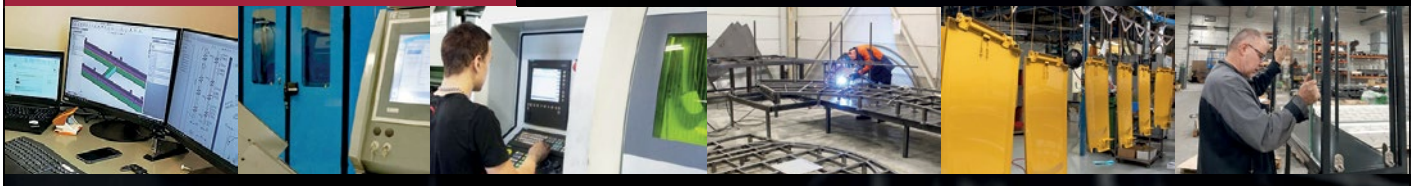

Our engineering focuses on sustainability and life cycle cost of the product. We aim to extend the reliability and the lifetime of our products, with our technical solutions and material choices. Our products are easy and safe to maintain. We also supply spare parts with short delivery times

SHEET METAL PRODUCTS

In addition to the ventilation solutions, we manufacture demanding sheet metal products. Our best-known product, is the Bobi mail- and parcel box Bobi, which is manufactured using special welding equipment. We also handle the painting and logistics of our products.
