**SHAPING THE FUTURE OF
MARITIME OPPORTUNITIES**

ABOUT US

Your dedicated partner in maritime innovation

You want a partner that understands your needs and delivers. Ocean Electronics is one of Norway's leading full-service providers of maritime electronics and communication, with deliveries worldwide.

At Ocean Electronics you meet a passionate team driven by technology and innovation. We combine extensive experience with a strong desire to find the best solutions for you. Our strength lies in understanding your everyday challenges and adapting to them, so you can focus on results and growth.

We are available – whether you need urgent support, advice, or simply want to explore new opportunities. With our flexibility and presence, you can rely on us to deliver – every time.

With Ocean Electronics, you don't just get products and services – you get a partner who cares as much about your success as you do. Together we create solutions that give you a competitive edge in a demanding market.

Totalleverandør av radio-kommunikasjon og LTE-løsninger til Electro Team.

OUR HISTORY

From strong roots to future growth

Your success requires a partner with solid foundations and strong drive. The story of Ocean Electronics is driven by growth, and a continuous pursuit of improvement. Over the years, we have built expertise, nurtured relationships, and established ourselves as a key player in the maritime sector.

Our journey is about seizing opportunities, thinking differently, and never being afraid to challenge the established. We are constantly striving to deliver better solutions for you.

We are constantly increasing our portfolio – with two new vessel projects underway and a team that never stops until your needs are met. We believe in openness, collaboration, and being present – ensuring you always have a reliable partner by your side.

*When you choose us,
you don't just get a
supplier – you gain a
partner who builds
the future with you.*

Leaders in maritime electronics – range, quality, and reliability

You need a partner who delivers on every front – and that's exactly what we do. Ocean Electronics is one of the largest providers of maritime electronics in Norway, handling everything from small assignments to large, complex projects.

We perform installation, service, upgrades, and maintenance of all types of ship and vessel electronics, with expertise in navigation, communication, and fish finding systems.

Our partners and suppliers are among the most recognized in the industry, giving you access to the best solutions on the market. You can rely on our experience, quality, and ability to deliver – no matter the challenge.

With us, you get a supplier who always puts you and your results first – providing security for the future.

SIMRAD
By KONGSBERG

Utviklet i samarbeid med norske fiskere.

Fra hjertet av Horten utvikler og produserer vi fiskeletingsutstyr i verdensklasse. Med kort vei til fiskefeltene testes og perfektioneres utstyret i nært samarbeid med norske fiskere.

Brands we import and represent – your guarantee of quality

Through our partnerships with leading brands, you gain access to a wide range of quality products. Ocean Electronics imports and distributes Tokyo Keiki, Navis, and YDK, and is a proud dealer of Furuno, JRC, Jotron Skipper, Jotron, Sailor, Sal Navigation and EMC Telecom.

Our broad network and long experience give you confidence in fast deliveries and technical support when you need it most.

We ensure that you always have access to solutions adapted to your requirements, giving you the edge to stay ahead in your industry.

When you choose equipment from us, you don't just get technology – you get quality, reliability, and full support every step of the way.

SUSTAINABILITY

Working together for a greener and responsible future

By choosing Ocean Electronics, you help make a difference for the environment. We have developed systems for recycling old equipment and place strong emphasis on waste sorting throughout our operations.

Our sustainability strategy is inspired by the UN Sustainable Development Goals 5 (Gender Equality), 8 (Decent Work and Economic Growth), 9 (Industry, Innovation, and Infrastructure), and 14 (Life Below Water).

We provide solutions that consider both operations and the environment, making it easy for you to make greener choices – for yourself, your business, and the next generation.

Together, we are creating a more sustainable and responsible future for maritime Norway.

Take the step towards greener operations – we are here to support you all the way.
