Norwegian brochure

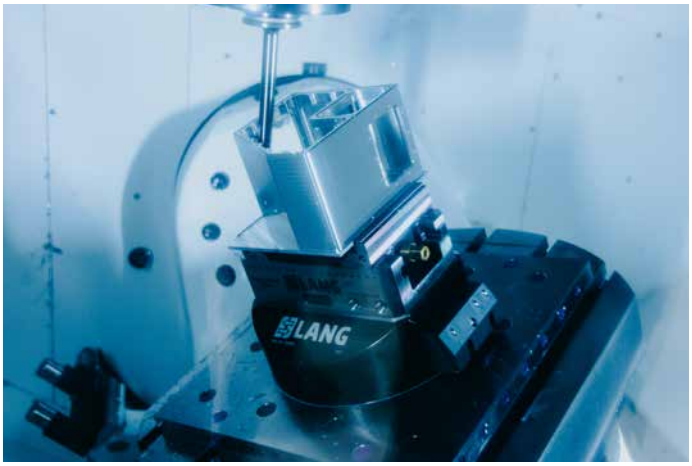

A complete supplier of mechanical expertise and precision

Tamek AS was established in 1984, when ”Tandberg Mekaniske Verksted” was spun off from ”Tandberg Radiofabrikk”. Today, we are a complete supplier of mechanical solutions and systems for industries with high requirements—such as defense, maritime industry, aviation, railways, and electronics.

We combine long experience with modern production technology and efficient management systems. Quality, traceability, and delivery precision are central to everything we do.

We deliver everything from individual components to complete sub-systems—tailored to both small and large production series. Regardless of volume, we ensure high professional competence and precision at every stage.

Why TAMEK?

- Well-known customer references
- Modern production line
- Combined machining and sheet metal fabrication
- Customer-specific and innovative processes

TAMEK is characterized by:

- Technical expertise
- Quality
- Flexibility
- Trust

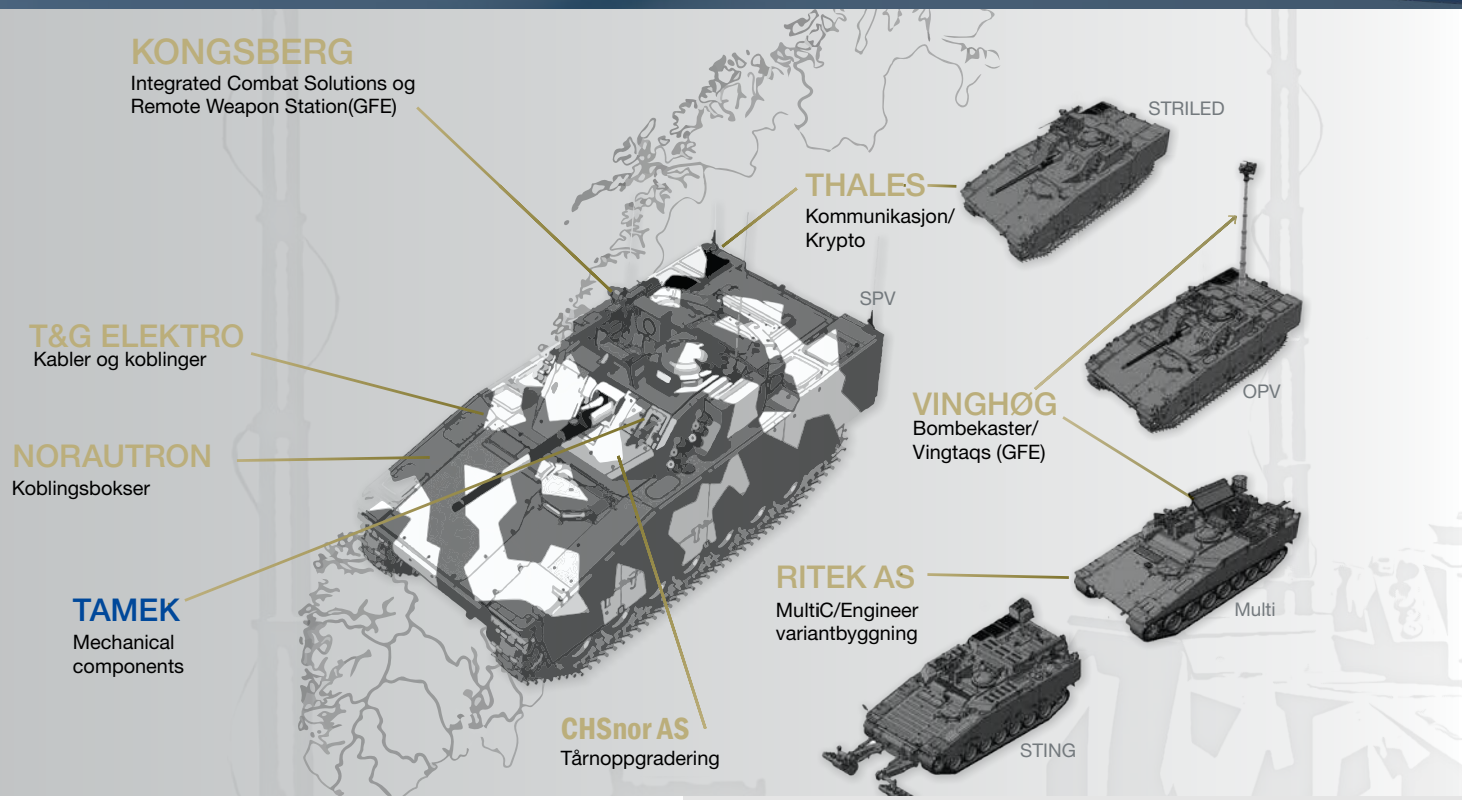

Multiple levels in the value chain:

- Component supplier
- System manufacturer
- Partnership manufacturing

Special is our standard

At Tamek AS, we focus on quality at every stage—from the first contact to the final delivered product. We have a modern machine park and advanced production systems that enable us to handle demanding and diverse tasks for customers with high standards.

Our work is grounded in professional pride and a strong quality culture. We build trust-based relationships and combine efficient operations with honesty and accountability. With us, you get a partner who thinks innovatively when needed, but always delivers in line with the customer's specifications and expectations.

All our employees hold trade certificates and possess high technical competence. As an approved training company, we also take responsibility for developing new expertise within the industry. Tamek is certified according to ISO 9001 for quality, ISO 14001 for the environment, and ISO 3834-2 for welding processes. We work systematically with documentation and traceability in all processes—because quality is not only about the result, but also about how you achieve it.

Some of our most well-known customers:

- Kongsberg-gruppen
- BAE Systems Hägglunds
- SAAB

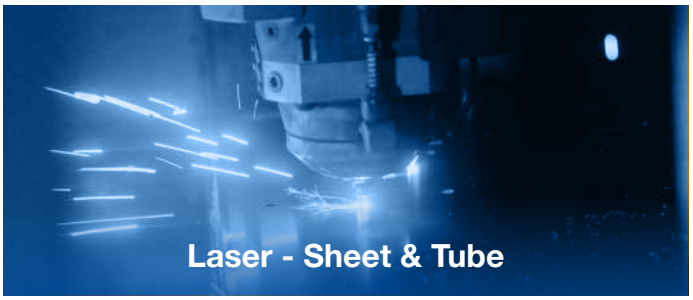

Quality and production managment:

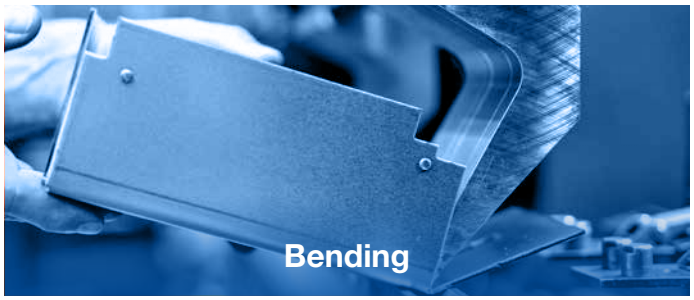

- Certified according to ISO 9001, ISO 14001 and ISO 3834-2
- MPS system for full traceability of all activities

Total Supplier

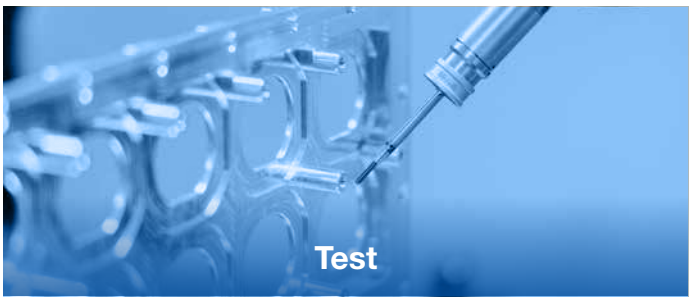

TaMek a.s has a modern machine park equipped with both modern production tools and control systems for varied and demanding tasks. This enables us to deliver products and services as a total supplier and for products that require very high quality. BAE Systems Hägglunds, Kongsberg Gruppen and SAAB are examples of high-tech companies to which we supply systems. We have 4000 m2 with flexible and efficient production flow.
