

**Responsibly
caught and
processed fish
from the Baltic Sea**

Process

Process starts with catching fish by trawling.

Fish is unloaded from the ship for grading

Some of the fish is sold fresh.

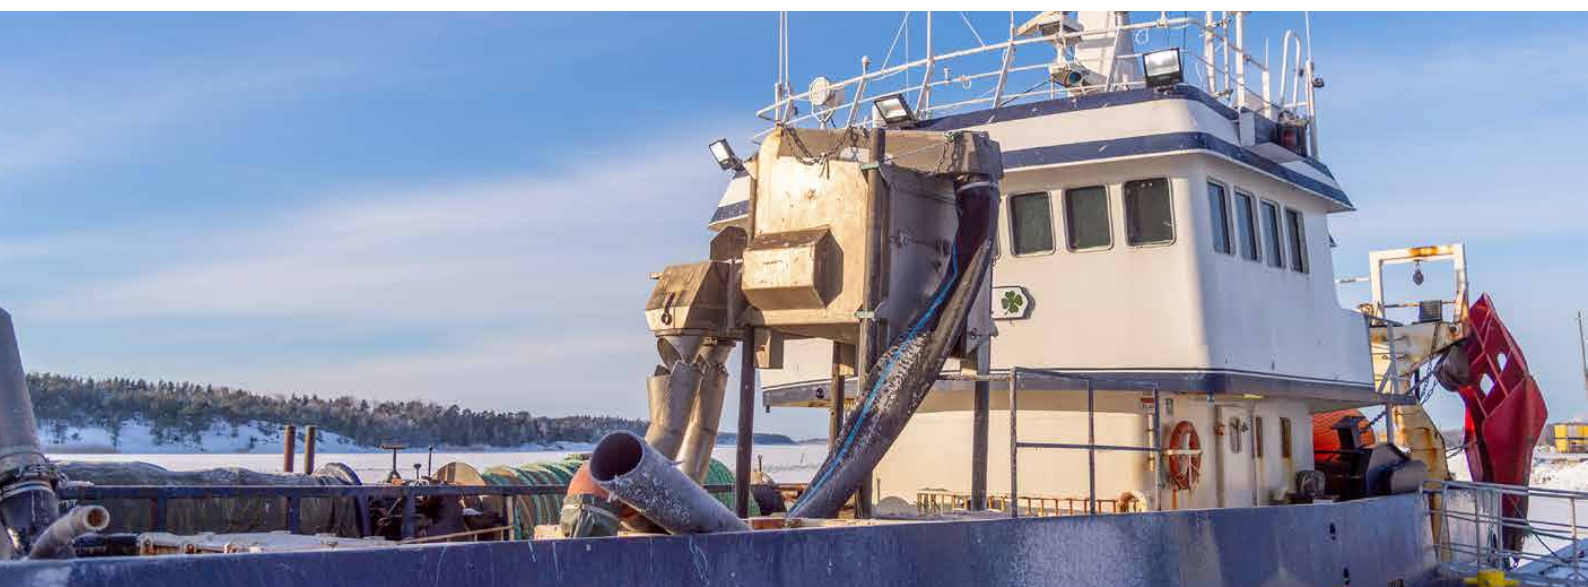

Troolari Olympos Oy is a Finnish fishing company specializing in high-quality Baltic herring. Our operations combine modern fishing methods, controlled handling and efficient logistics to ensure that the time from sea to cold storage remains as short as possible.

We focus on a simple but reliable process. Every stage, from catching to freezing, is carefully monitored to guarantee consistent quality and food safety. This controlled production chain ensures stable supply for our partners worldwide.

Our products are delivered internationally to professionals in the seafood industry. The same raw material can serve multiple purposes across different market segments, from food production to further processing.

Troolari Olympos stands for dependable deliveries, uniform quality and long-term cooperation. We are not only a supplier, but a reliable partner for customers who require predictable raw material and efficient operations.

Watch our video

Some of the fish will be transferred to the production plant for freezing.

The fish is sold frozen.

Baltic herring (*Clupea harengus membras*)

Our main product is frozen Baltic herring – a wild fish from clean northern waters. Fishing is carried out responsibly while maintaining healthy fish stocks.

Available sizes:

- 9–12 cm
- 12–15 cm
- 15–17 cm
- 17+ cm

Baltic herring is a versatile raw material suitable for multiple applications. It is widely used in food production such as filleting, smoking and canned products. The fish naturally contains valuable nutrients including omega-3 fatty acids.

In addition to human consumption, the product is also used as feed in aquaculture. Thanks to its consistent quality and reliable availability, the same raw material fits different industrial needs worldwide.

Every catch is fully utilized. Responsible harvesting and efficient handling ensure minimal waste and maximum value for our customers.
